

KAZ RODRIGUEZ SIGNATURE SNARE DRUM

This is a truly special, limited-edition model that embodies both the sound and the visual presence Kaz Rodriguez has long pursued.

Kaz Rodriguez

Kaz Rodriguez is a Grammy award winning drummer and composer who has performed with numerous top artists, including Josh Groban and Chaka Khan, earning worldwide acclaim from drummers for his dynamic yet delicate playing style. In addition to touring and recording, his work as a composer has led to a distinctive musical voice that continues to captivate fans across genres.

FEATURES

10mm, 6ply Maple + 6ply Bubinga G-Hybrid Shell

The shell features a 6ply maple and 6ply bubinga hybrid construction with a 10mm total thickness, blending maple's bright, natural tone with the powerful depth of bubinga. Contrary to what might be expected from a deeper shell, its 6.5" depth delivers rich tone with an exceptionally quick & sensitive response — core elements of the sound Kaz envisioned.

2.3mm Sound Arc Hoop

Paired with TAMA's original 2.3mm steel Sound Arc hoops that feature an inward-curved design, the snare's overtones are subtly controlled and these hoops produce a highly focused sound with crisp & sharp attack.

Matte Metallic Gold Finish

Finished in a matte metallic gold that evokes the look of a brass shell, this drum is designed to complement any drum kit while attracting attention on stage.

SPECIFICATIONS

Model #	KR1465
Size	14" x 6.5"
Shell	10mm, 6ply Maple + 6ply Bubinga G-Hybrid Shell
Lug	MTL60 (10 Tension)
